

# Digital Guide for Parents & Carers

hegartymaths

## What is Hegarty?

Hegarty is an engaging digital Maths platform used in Ark Secondary schools in line with the curriculum.

- An easy to use platform for your child's Maths home learning
- Videos demonstrating example Q & As for every topic
- Assesses your child's knowledge through quizzes

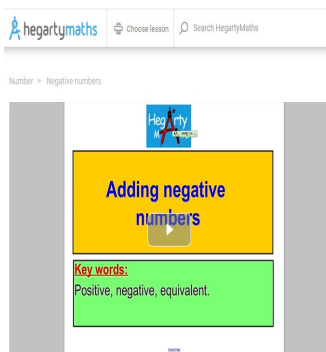

## What if my child forgets their login details?

Once you have entered name, surname and date of birth, , click 'forgotten your password' on the password screen, now a reset my password request will be sent to your child's maths teacher.

## How will Hegarty help my child?

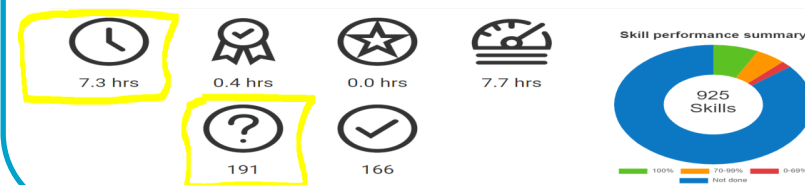

Teachers set home learning activities through Hegarty, based on their Maths lessons

- Videos with example Q & As are shown at the beginning of each quiz
- Quizzes are based on what your child has been learning at school or for revision
- Pupils can revisit a topic to practise and improve memory and maths confidence.

## Can I see my child's progress?

Yes, pupil dashboards show their progress including how many hours spent using Hegarty and how many questions answered correctly.

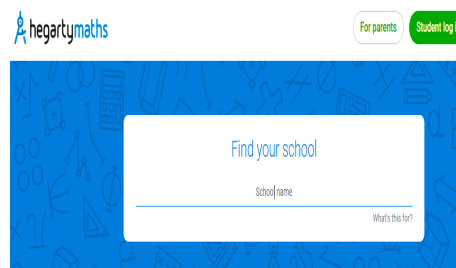

## How do we access Hegarty?

Your child will sign into Hegarty using:

- \* School name
- \* First name
- \* Surname and D.O.B
- \* Their chosen password from initial sign up

For guidance on logging in please click this [video link](#)

## How do I support my Child at home?

- Hegarty has it's very own support page for parents, please click [here](#) to find out more.
- If your child is struggling with a topic, use the search bar at the top to find that topic.
- If your child has an upcoming assessment, they can use 'Memri' or 'Fix-Up Five' to revise things they worked on in the past.
